

Who is Michelle?

FOUNDER OF VIRTUAL MISS FRIDAY

Hi! My name is Michelle Dale, I'm the founder of Virtual Miss Friday, a business I started in 2005 from a laptop abroad after I booked a one way ticket out of the UK and never looked back. Life has been beautiful and crazy since then, but in a good way! Here's a little bit about me, so I'm less of a stranger...

PERSPECTIVE

I've had a pretty colourful life, with this brings a lot of experience and perspective. Many have told me there's something special about me, a way of sharing, thinking, caring that has changed their lives. What's my secret? Extensive life experience...

RELATIONSHIP

Technology might be impersonal, but I'm not, through working online we can still develop a real relationship together, so I can better learn about and understand you as time goes on, which enables me to help and support you so much more.

ENTREPRENEUR

I'm a pretty legit business owner, started my online company with no funds, and no knowledge. I grew the company to multi-6 figures and have facilitated 100k + launches. I've also created InSourcing™ ~ an entire business model for the outsourcing industry.

DIGITAL NOMAD

When I started my business in 2005 I did it after booking a one-way ticket out of the UK. I have since lived in 7 countries, travelled to many more, and run and operated my business out of all of them. I've dealt with living, logistics, languages and everything in between when it comes to living abroad.

MOTHER

I'm a mother of 4 amazing kids, from baby to teen, and because of the nomadic aspect, each one of my children was born in a different country. I've mainstream schooled, homeschooled, and dealt with all the normal parental challenges - and survived!

SPIRITUAL

Call me a bit woo woo, but I'm a spiritual being in a physical body - and you are too. I believe our life is created at soul level. Intuition, connection to something bigger, which we all have the ability to tap into, releasing our true potential from within. I can help you with this.

LIFESTYLE

I'm ALL about the lifestyle, whatever makes you happy, whatever you love to do, or be, no judgment - it's about creating a life that gives you a purpose to get out of bed in the morning and feel gratitude and peace before you go to sleep at night. I have this, I want it for you too.

COMMUNITY

We're better when we're together! Virtual Miss Friday is really about all of us, and when you become a part of this, you'll also join a family online, people who support, care, lift you up, share advice, and help you better yourself. Maybe you find some people don't 'get' you, but we will ;-)
