

Welcome to The Bath House-- Some simple agreements for clarity as we begin (so we can relax and enjoy).

The Bath House Agreements

-- The Bath House is entered on the basis of three months at a time.

-- Inside the Bath House, members will receive a 2-3 hour group event LIVE with PK a month and access to the replays within 24 hours of the event. Members also receive access to The Bath House telegram group where the ongoing mentoring takes place. Agreements for this group are below.

-- No material delivered inside of The Bath House, whether it be via live transmission or in the mentoring group on telegram, are able to be shared in any way without written expressed consent by Peta Kelly.

-- Bath House members have access to a) Bath House transmission recordings b) Previous replays from the PK collection and c) access to telegram group for the duration of membership. Access to all is revoked upon exiting the Bath House. Lifetime access is not offered for anything. Freshness is too important here :)

-- Access to previous recordings in the PK collection includes offerings that are not currently being offered. This is a complimentary bonus for The Bath House members, and currently includes House of Heaven, Confetti, Antidote 1 and 2. Some future replays will also be offered free to The Bath House members, but not all. Please note, members have access to replays from the collection only while they are members. PK does not offer lifetime access to ANY of her offerings.

-- If a payment does not go through, it must be corrected within 7 days or other arrangements must be made with the PK team in order to continue. We understand things happen and what we request first and foremost is clear and honest communication. While we are compassionate, we also respect and honour the sanctity of PK's work and only welcome the same respectful standard of integrity into this space.

Boundaries of the Telegram Group - "The Hot Spring"

- This space is where the action (and soaking happens). It's where we sit together with the concepts and invitations from the anchoring live session.
- This is the clubhouse, the place you can touch into as regularly as you like for connection, exchanges, asking, receiving or just instant calibration.
- Questions and expressions are welcome here.
- All members agree not to share other women's personal expressions anywhere else-- this space is one of safety and respect.
- PK will offer audio or text insights or invitations through this space.
- This space is an 'energetic home' and will be the place for our conversations, and the place in which I can respond to whatever arises.
- PK is offering her own unique presence, gifts, wisdom, perspective and lived experience as a mentor in this space. By joining this space, you seek PK as a mentor and are familiar with her work, her style and her nature.
- This is positioned as a club -- not only for bringing resonant women together from around the world, but also for calibrating to new energies and new standards. It is intentionally positioned as a mentoring group and not a coaching group so that it can maintain a softness and organicness. It is also intentionally positioned as a club and not a mastermind because PK works in a way that meets whatever arises naturally-- she will always offer what is most fresh and alive and respond to the same in you. This is the specialness in this space.

Expectations:

- I respond via voice/text throughout the day/evening as it flows with my family.
- I respond via voice/text Monday-Thursday for the entirety of the period (I may also respond over the weekend (likely) however, 24/7 access not to be expected :))
- I will answer questions and respond with my full presence and authenticity and will always express if there is something beyond my scope of work. I am not a trauma specialist, nor am I claiming to be anything other than I'm not. By walking into this space you are doing so with strong resonance, intuition and full familiarity with my work.
- It is understood that I am not personally responsible for anything other than showing up with my genuine presence and gifts for you in this period. This is a space of self-responsibility and self-discernment.
